

Visuals - Be Inspired

“**Visuals - Be Inspired**” is a new Mac app designed to spark creativity and inspiration by creating dynamic mood boards. Visuals helps you stay inspired by seamlessly presenting curated images. No clutter, no distractions — just a steady stream of visual inspiration tailored to your creative workflow and goals.

Create Dynamic Moodboards

Transform folders of images into a gallery of inspiration

With no adverts or endless scrolling, users get only the content they have curated. This ensures an experience filled with inspiring and entertaining imagery — without the distraction, negativity, and time sink of social media feeds.

Built with a focus on simplicity and performance, Visuals offers users a seamless and efficient experience that can be used alongside any other set of apps.

Features & Benefits

- **Dynamic Mood Boards** – Display mood boards in different windows that refresh at customizable intervals.
- **Customizable Experience** – Choose a folder of images. adjust layout settings and image cycling speed to match your workflow.
- **Be Inspired to do your best work.** Keep imagery of what inspires and motivates you right on your Mac desktop, alongside your work apps.
- **Wisdom on Tap - Be More effective.** Don't let the wisdom found in great books lie dormant and forgotten on a bookshelf.
- **Stay Focussed on Long Term Goals & Healthy Habits.** Counteract the onslaught of advertising from junk food companies, and other influences that prevent you from reaching your goals.
- **Immersive Learning.** Create a visual mood board that displays relevant imagery for whatever you are studying.
- **Good Vibes. Great Aesthetics. Personalise your Digital Life.** Your Mac has a beautiful display - use it to display more of what brings you joy.

Vision and Purpose

"I created **Visuals** to help me stay focused and motivated on my goals. It's like the having some of the best parts of social media, without the downsides. I spend less time mindlessly scrolling on social media now, and am much more intentional when I do use it. I'm excited to bring this app to Mac users worldwide so they can enjoy the benefits too," said Krishna Kotecha, developer of "**Visuals** - Be Inspired" and the founder of **Sun Tree Apps**.

Download

Visuals is available on the Mac App Store.

It is a simple one-time purchase, with no subscription or IAP.

A free demo is available for download at: <https://suntressapps.com/visuals>
